

About Carroll Insurance Group

Founded in the late 1970's, we specialise in placing Insurance covers into the Lloyds and Company markets. Our company prides itself on being independent, dynamic and entrepreneurial.

We have excellent working relationships with our underwriters built as a result of our longevity in the market and years of professional experience.

Our philosophy is to provide our clients with a bespoke personal service at a competitive premium.

Our head office is based in Cornhill at the heart of the City of London allowing us easy access to our underwriters and ensuring an efficient response.

All business is handled by experienced and professional brokers, who can negotiate with underwriters "face to face" and we do not endorse the use of automated telephone systems or call centres.
